Company Introduction

SHEP ENGINEERING SERVICES : Since 2012, we have been providing Structural Engineering services spanning from design, detailing, fabrication, building and commissioning of construction works which comprises a full scope project management process. Our offices are located in Nairobi along Workshop Road.

WE PROVIDE HIGH QUALITY STEEL STRUCTURAL & CONSTRUCTION SERVICES : Steel structures design involve drawing & detailing, design & analysis, and welding & fabrication of the steel structures. We manage all ranges of construction projects across sectors ranging from light to heavy commercial and domestic structures.

Our Commitments

Our Vision

We believe in offering structural engineering works in a way that is fair, transparent, and above all safe and sustainable.

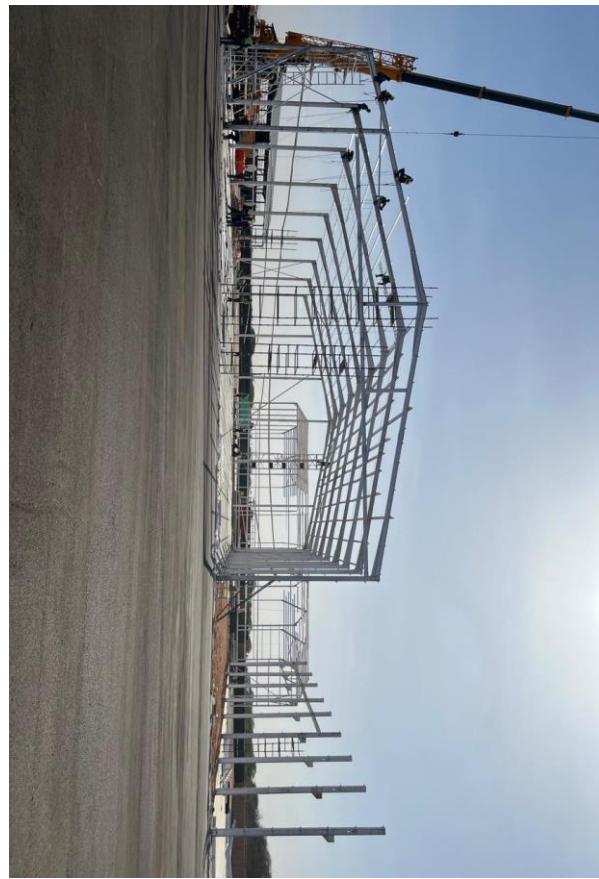

Our Mission

Our mission is to deliver superior steel structures that stand the test of time, enrich communities, and empower our clients to turn their visions into reality.

SHEP Engineering LTD ability to build on competence, technical expertise and innovation has enabled us to stand out in the industry as the best choice for Steel Structural solutions.

Our Values

We value excellence, trust, Respect, empowerment, accountability and mutual relationship. Consistent quality services, Consistent innovation and No substitute for quality.
